FIFTH ORDER OF BUSINESS

Update Regarding Phase 6 Construction Matters

A. Update Regarding Westbank Park

Mr. Hadden stated they are scheduled to be paving Phase 6 starting Thursday of this week depending on the rain. All the utilities are in, the ponds are dressed out and lots are finished. There are four model homes under construction.

We received bids last week for the park in Phase 2 Eagle Landing 6, there were some discrepancies in the fill quantities and we will meet with both contractors and bring the bids to the next meeting.

Mr. Vincent stated the bids on the sitework appear to be \$75,000 to \$100,000 less than the budget, which will give us more towards other improvements.

On MOTION by Mr. Payton seconded by Mr. Randy Smith with all in favor requisition 029 from the series 2016 A3 bonds was ratified.

This item tabled.

EIGHTH ORDER OF BUSINESS

Public Hearing Adopting the Budget for Fiscal Year 2020

A. Overview of Fiscal Year 2020 Budget

Mr. Hahn gave an overview of the golf fund budget.

The board discussed usage of the recreation facilities and amenity center, number of guest passes, capacity of the pool and revenue from café and cabana.

C. Public Hearings – Public Comment Regarding Budget and Assessments

On MOTION by Mr. Randy Smith seconded by Mr. Krueger with all in favor the public hearings were opened.

There was no comment or testimony from the public.

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor the public hearings were closed.

D. Consideration of Resolution 2019-14 Relating to the Annual Appropriations and Adopting the Budget for Fiscal Year 2020

Ms. Buchanan stated the first resolution is the appropriations resolution and it is through this resolution you would adopt the actual budget. The copy if the agenda package is blank pending any changes made at the meeting but Jim will go back and fill in the blanks in accordance with the discussions today.

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor Resolution 2019-14 was approved.

E. Consideration of Resolution 2019-15 Imposing Special Assessments and Certifying an Assessment Roll for Fiscal Year 2020

Ms. Buchanan stated the second resolution is the assessment resolution and it levies and certifies for collection the operation and maintenance assessment and the previously levied debt service assessment. Both of those components will be on most homeowners' tax bill listed as one item. There are two types of properties, one is the tax roll property, which is any lot with a home on it or undeveloped but platted the second type would be a direct collect property that is Phase 6 and it has a payment schedule outlined in the resolution. It certifies the assessment roll, which identifies all the property subject to the district's assessments and authorizes us to make minor amendments.

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor Resolution 2019-15 was approved.

F. Consideration of Agreement with WS WB Holdings, LLC Regarding the Direct Collection of Special Assessments for Fiscal Year 2019-2020

G. Consideration of Agreement with ES WB Holdings, LLC Regarding the Direct Collection of Special Assessments for Fiscal Year 2019-2020

Ms. Buchanan stated the next two items are consideration of direct collection agreements. I ask that we do this in substantial form with the understanding that they would execute it and return it to us; it is the same version that was authorized last year but it has not been provided to WS WB Holdings and ES WB Holdings.

On MOTION by Mr. Payton seconded by Mr. Randy Smith with all in favor the agreement with WS WB Holdings, LLC and ES WB Holdings, LLC regarding direct collection of Special Assessments for Fiscal Year 2019-2020 were approved in substantial form.

NINTH ORDER OF BUSINESS

**Public Hearing Adopting Rates for the Eagle
Landing Golf Club and Recreational
Facilities**

A. Overview of Proposed Rate Changes

Mr. Hahn gave an overview of the rate increases.

Ms. Buchanan stated in a hearing like this we have a couple questions that I will ask you for confirmation based on your expertise. It sounds like you think the rates are an equitable amount that we are charging compared to our market conditions and surrounding golf courses and services that we provide.

Mr. Hahn stated definitely, we looked at all the competitors around us and there are some that are a little bit more than us and some that are less than us. With the quality of our golf course and what we offer we are well within the range of our competitors and should be looked at one of the higher tier levels.

Ms. Buchanan asked would you agree that ultimately our budget is based on assessments but by providing for the rate structure that you set forward it allows for users that pay assessments to pay their proportionate share of the burden on our facilities.

Mr. Hahn stated yes, the goal was to create the best possible rate for our residents and have other people pay more.

Mr. Randy Smith asked there is a cap of \$65, do you see that as a target for out of town players?

Mr. Heintzman stated we are already at \$56 for out of towners and \$65 is not too far off.

Mr. Kreuger stated we have rates for tennis lessons and so forth, yet I don't see it for golf. Is that something we need or not?

Mr. Hahn stated golf is a little bit different because you get a little more of the general public whereas with tennis you are dealing primarily with residents.

Ms. Buchanan stated if we are charging a fee for golf lessons it would be ideal to adopt a rate. We should move ahead and adopt these and by motion you can authorize the notice of rulemaking and notice of rule development to be brought back at a future meeting. We will deal with it separately.

On MOTION by Mr. Randy Smith seconded by Mr. Payton with all in favor staff was authorized to issue a notice of rulemaking and notice of rule development for golf lessons.

B. Public Hearing – Public Comment Regarding Rates

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor the public hearing was opened.

A resident asked where are these rates available for viewing?

Ms. Buchanan stated the proposed increases were published two weeks in a row and the actual rates were included in the Clay Today Newspaper and they were also included in this month's agenda package, which is on the website.

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor the public hearing was closed.

C. Consideration of Resolution 2019-16 Adopting Rates for the Eagle Landing Golf Club and Recreational Facilities

Ms. Buchanan stated Resolution 2019-16 makes certain findings relating to the introduction of the rates as well as the board's determination that it is its best interest to move forward with adoption. The resolution also finds that these rates are based on the amount of service furnished and the other factor is related to usage.

On MOTION by Mr. Payton seconded by Mr. Krueger with all in favor Resolution 2019-16 was approved.

TENTH ORDER OF BUSINESS

Staff Reports

A. General Manager - Report

Mr. Hahn reviewed the operations report that included operations of the amenity center, athletic center, tennis facility, golf and clubhouse operations, common areas, special treatment of six of the retention ponds and landscaping.

B. District Counsel

Ms. Buchanan stated earlier in the month we had a comment about someone not maintaining the palm trees that are installed on CDD property. Do we want to ask the board for direction?

Mr. Hahn stated right after that email came out the work was done.

C. District Manager – Discussion of Fiscal Year 2020 Meeting Dates

On MOTION by Mr. Payton seconded by Mr. Rick Smith with all in favor the notice indicating monthly meetings on the first Tuesday of the month was approved.

ELEVENTH ORDER OF BUSINESS

Supervisor's Requests and Audience Comments

The following items were brought up and discussed: the senior tennis program across the street seems more open and welcoming to our residents; no swimming signs by ponds.

On MOTION by Mr. Randy Smith seconded by Mr. Rick Smith with all in favor staff was authorized to amend the policies to include language about no swimming in district ponds.

Additional comments dealt with the following: Get bids on fence in front of the clubhouse and possibly match the back patio fence, staff will continue to research it, revised amount for bunker repair, pond by cabana bar has debris that needs to be cleaned out, concern about late play on the golf course, golf cart replacement timeframe, café open Saturday and Sunday only starting this week, cabana bar open until the first weekend in December, removal options of geese on golf course being a nuisance and health hazard, possibly have lines for pickleball outside, cost to be brought to the next meeting, need for security by the dirt mound because kids are going in there, kids are jumping off the bridge into the pond on 15 and 16 and signage is needed and someone needs to watch that bridge, put in a fence between 9 and 10 to replace the rope fence.

TWELFTH ORDER OF BUSINESS

Financial Reports

A. Balance Sheet as of June 30, 2019 and Statement of Revenues and Expenses for the Period Ending June 30, 2019

REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
South Village Community Development District
Clay County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of South Village Community Development District as of and for the year ended September 30, 2018, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Accounting Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

✓ In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, and each major fund of the South Village Community Development District as of September 30, 2018, and the respective changes in financial position and cash flows for the Enterprise Fund and the budgetary comparison for the General and Special Revenue Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures in accordance with governmental auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated August 12, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering South Village Community Development District's internal control over financial reporting and compliance.

**South Village Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2018**

Management's discussion and analysis of South Village Community Development District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's basic financial statements comprise three components; 1) *Government-wide financial statements*, 2) *Fund financial statements*, and 3) *Notes to financial statements*. The *Government-wide financial statements* present an overall picture of the District's financial position and results of operations. The *Fund financial statements* present financial information for the District's major funds. The *Notes to financial statements* provide additional information concerning the District's finances.

The *Government-wide financial statements* are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and business-type activities and the change in net position. Governmental activities are primarily supported by special assessments. Business-type activities are supported by charges to the users of those activities, such as golf course and restaurant service charges.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities separate from the assets, liabilities, and net position of business-type activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities or business-type activities. Governmental activities financed by the District include general government, physical environment, culture/recreation, and debt service. Business-type activities financed by user charges include golf course and restaurant services.

Fund financial statements present financial information for governmental funds and the enterprise fund. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources. The enterprise fund financial statements provide information on all assets and liabilities of the funds, changes in the economic resources (revenues and expenses), and total economic resources.

**South Village Community Development District
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended September 30, 2018**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Fund financial statements include a **balance sheet** and a **statement of revenues, expenditures and changes in fund balances** for all governmental funds. A **statement of revenues, expenditures, and changes in fund balances – budget and actual** is provided for the District's General Fund and Special Revenue Fund. For the enterprise fund, a **statement of fund net position**, a **statement of revenues, expenses, and changes in fund net position**; and a **statement of cash flows** are presented. *Fund financial statements* provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The *government-wide financial statements* and the *fund financial statements* provide different pictures of the District. The *government-wide financial statements* provide an overall picture of the District's financial standing, split between Governmental Activities and Business-type Activities. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including land and improvements are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The *fund financial statements* provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as general obligation bonds, are not included in the fund financial statements. To provide a link from the *fund financial statements* to the *government-wide financial statements*, a reconciliation is provided from the *fund financial statements* to the *government-wide financial statements*.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2018:

The increase in current assets and current liabilities for business-type activities is primarily related to timing.

The decrease in restricted assets for governmental activities is primarily related to capital outlay expenditures at the fund level.

The decrease in current liabilities for governmental activities is primarily the result of timing as there were less payables in the current year.

The decrease in non-current liabilities for governmental activities is primarily the result of principal payments made during the year.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
For the Year Ended September 30, 2018

Net Change in Fund Balances - Total Governmental Funds	\$	(240)
--	----	-------

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation. This is the amount capital outlay (\$686,909) exceeded depreciation (\$(659,423)) in the current period.		27,486
---	--	--------

Principal payments are reported as expenditures in the governmental funds, but are reported as reductions of liabilities in the Statement of Net Position.		1,100,000
--	--	-----------

Deferred outflows of resources for refunding debt is recognized as a component of interest on long-term debt in the Statement of Activities, but not in the governmental funds. This is the amount of interest in the current year.		(13,776)
---	--	----------

Amortization of bond discount reported in the Statement of Activities does not require the use of current financial resources and therefore, is not reported as an expenditure in governmental funds.		(31,906)
---	--	----------

In the Statement of Activities, interest is accrued on outstanding bonds; whereas in governmental funds, interest expenditures are reported when due. This is the change in accrued interest during the current period.		14,704

South Village Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

1. Reporting Entity

The District was established on April 28, 2003, pursuant the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended (the "Act") by Ordinances Number 2003-36 as amended by ordinance number 2004-67 of the Clay County Board of County Commissioners, as a Community Development District. The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of the infrastructure necessary for community development within its jurisdiction. The District is authorized to issue bonds for the purpose, among others, of financing, funding, planning, establishing, acquiring, constructing or re-constructing, enlarging or extending, equipping, operating and maintaining water management, bridges or culverts, district roads, landscaping, street lights and other basic infrastructure projects within or without the boundaries of the South Village Community Development District. The District is governed by a five-member Board of Supervisors who are elected by qualified electors of the District for four year terms. The District operates within the criteria established by Chapter 190.

As required by GAAP, these financial statements present the South Village Community Development District (the primary government) as a stand-alone government. The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth by the Governmental Accounting Standards Board, the District has identified no component units.

2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

a. Government-wide Financial Statements

Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include separate columns for the governmental and business-type activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which normally are supported by special assessments and interest, are reported separately from business-type activities. Program revenues include charges for services and grants and contribution. Program revenues are netted with program expenses in the Statement of Activities to present the net cost of each program.

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net position. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – *Fund Balance Reporting and Governmental Fund Type Definitions*. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

2. Measurement Focus and Basis of Accounting (Continued)

b. Fund Financial Statements (Continued)

Governmental Funds (Continued)

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

Enterprise Funds

In the fund financial statements, the enterprise fund is presented using the accrual basis of accounting. Revenues are recognized when they are earned and expenses are recognized when the related goods or services are delivered. In the fund financial statements, enterprise funds are presented using the economic resources measurement focus. This means that all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets. Enterprise fund operating statements present increases (revenues) and decreases (expenses) in total net position. The District applies all GASB pronouncements as well as FASB Statements and Interpretations, APB Opinions and Accounting Research Bulletins, issued on or before November 30, 1989, which do not conflict with, or contradict, GASB pronouncements.

3. Basis of Presentation

a. Governmental Major Funds

General Fund – The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Recreation Fund – The Recreation Fund is a special revenue fund established to account for the financial resources of the District's recreation areas.

South Village Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2018

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Liabilities, and Net Position or Equity

a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

1. Direct obligations of the United States Treasury;
2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

For purposes of the statement of cash flows, cash equivalents include time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less and held in a qualified public depository as defined by Chapter 280.02, Florida Statutes.

b. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported as "internal balances".

c. Inventories

Inventories are recorded at cost using the first in-first out basis and recognized as expenses as they are consumed.

d. Restricted Assets

Certain assets of the District and a corresponding liability or portion of net position is classified as restricted assets on the statement of net position because their use is limited either by law through constitutional provisions or enabling legislation; or by restrictions imposed externally by creditors. In a fund with both restricted and unrestricted assets, qualified expenses are considered to be paid first from restricted net position and then from unrestricted net position.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

4. Assets, Liabilities, and Net Position or Equity (Continued)

e. Capital Assets

Capital assets, which include land, construction in progress, infrastructure, recreation facilities, and equipment, are reported in governmental activities.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of capital assets is computed and recorded by utilizing the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows:

Infrastructure and recreation facilities	30 years
Equipment	10 years

f. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. Formal budgets are adopted for the general fund. The legal level of budgetary control is at the fund level. As a result, deficits in the budget columns of the accompanying financial statements may occur. All budgeted appropriations lapse at year end.

g. Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to future periods. The District reported a deferred amount on refunding on the Statement of Net Position. A deferred amount on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

h. Unamortized Bond Discount

Bond discounts are presented on the government-wide financial statements. The costs are amortized over the life of the bonds. For financial reporting, the unamortized bond discount is netted against the applicable long-term debt.

NOTE B – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Position

"Total fund balances" of the District's governmental funds (\$2,825,988) differs from "net position" of governmental activities (\$11,368,500) reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the Governmental Fund Balance Sheet. The effect of the differences is illustrated as follows:

Capital related items

When capital assets (improvements and infrastructure that are to be used in governmental activities) are purchased or constructed, the cost of those assets is reported as expenditures in governmental funds. However, the Statement of Net Position included those capital assets among the assets of the District as a whole.

Infrastructure	\$ 5,283,667
Recreation facilities	11,456,135
Equipment	197,945
Accumulated depreciation	<u>(5,376,233)</u>
Total	<u>\$ 11,561,514</u>

Long-term debt transactions

Long-term liabilities applicable to the District's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities (both current and long-term) are reported in the Statement of Net Position. Balances at September 30, 2018 were:

Bonds payable	\$ (26,085,000)
Bond discount, net	<u>529,122</u>
Total	<u>\$ (25,555,878)</u>

Deferred outflows of resources

Deferred outflows of resources applicable to the District's governmental activities are not financial resources and therefore, are not reported as fund deferred outflows of resources.

Accrued liabilities in the Statement of Net Position differ from the amount reported in governmental funds due to the accrued interest on bonds.

Accrued interest	\$ <u>(428,577)</u>

2. Explanation of Differences Between the Governmental Fund Operating Statements and the Statement of Activities

The "net change in fund balances" for government funds (\$(240)) differs from the "change in net position" for governmental activities (\$1,096,268) reported in the Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The effect of the differences is illustrated below.

Capital related items

When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the Statement of Activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation. As a result, fund balances decrease by the amount of financial resources expended, whereas net position decrease by the amount of depreciation charged for the year.

Capital outlay	\$ 686,909
Depreciation	<u>(659,423)</u>
Net Change	<u>\$ 27,486</u>

Long-term debt transactions

Repayments of bond principal are reported as an expenditure in the governmental funds and, thus, have the effect of reducing fund balance because current financial resources have been used.

Bond principal payments	\$ 1,100,000
Amortization of bond discount	<u>(31,906)</u>

NOTE C – CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk, however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2018, the District's bank balance was \$747,343 and the carrying value was \$770,965. Exposure to custodial credit risk was as follows. The District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

As of September 30, 2018, the District had the following investments and maturities:

<u>Investment</u>	<u>Maturities</u>	<u>Fair Value</u>
SBA Local Gov't Surplus Trust Fund		
Florida Prime	33 days *	\$ 113,816
First American Government

* Weighted Average Maturity

South Village Community Development District
NOTES TO FINANCIAL STATEMENTS
September 30, 2018

NOTE C – CASH AND INVESTMENTS (CONTINUED)

The District categorizes its fair value measurements within the fair value hierarchy recently established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted price for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

Based on the criteria in the preceding paragraph, the investment in First American Government Obligation Fund Class Y is a Level 1 asset.

Investments

The District's investment policy allows management to invest funds in investments permitted under Section 218.415, Florida Statutes.

Cash placed with the State Board of Administration represents the District's participation in the Local Government Surplus Trust Funds Investment Pool and is reported at fair value.

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District's investments in Government Obligation Mutual Funds are limited by state statutory requirements and bond compliance. The District has no investment policy that would further limit its investment choices. As of September 30, 2018, the District's investment in the First American Government Obligation Fund Class Y was rated AAAM by Standard & Poor's.

Concentration of Credit Risk

The types of deposits and investments and their level of risk exposure as of September 30, 2018 were typical of these items during the fiscal year then ended. The District considers any decline in fair value to be temporary.

NOTE G – SPECIAL ASSESSMENT REVENUES

Assessments are non-ad valorem assessments on benefitted property within the District. Operating and Maintenance Assessments are based upon adopted budget and levied annually at a public hearing of the District. Debt Service Assessments are levied when bonds are issued and collected annually. The District may collect assessments directly or utilize the uniform method of collection (Chapter 197.3632, Florida Statutes). Direct collected assessments are due as determined by annual assessment resolution adopted by the Board of Supervisors. Assessments collected under the uniform method are due and payable on November 1 or as soon as the assessment roll is certified and delivered to the Tax Collector. Per Section 197.162, Florida Statutes, discounts are allowed for early payment at the rate of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes paid in March are without discount.

Assessments and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

NOTE H – INTERLOCAL AGREEMENTS

In January 2004, the District entered into a cost sharing agreement with Middle Village Community Development District ("Middle Village") for the maintenance of certain landscape improvements for which both Districts benefit. In accordance with the interlocal agreement, Middle Village will perform the required maintenance and the District will provide 31% of the costs incurred to perform the maintenance. For the fiscal year ended September 30, 2018, the costs related to the maintenance incurred by Middle Village was approximately \$115,784, of which \$35,893 was reimbursed to Middle Village by the District in connection with the agreement.

The Developer owns a portion of the land within the District; therefore, assessment revenues in the general, recreation, and debt service funds include assessments levied on the Developer owned property.

Pursuant to the funding agreement dated September 4, 2012, the Developer has agreed to fund any deficit of the District's general government, physical environment, and recreation expenditures in excess of the special assessments collected up to the total amount expended by the District for the fiscal year, without any reimbursement to the Developer. In connection with this agreement, there were no Developer contributions to the general fund in the current year.

NOTE J – MANAGEMENT AGREEMENTS

The District has contracted with a management company to perform management advisory services, which include financial and accounting services. Certain employees of the management company also serve as officers of the District.

The District has also contracted with two additional management companies, both who are affiliated with the Developer, to perform property management services, including managing, operating, maintaining, and supervising the recreation facilities of the District. Under these agreements, the District compensates the management companies for management, accounting, financial reporting, computer and other administrative costs.

NOTE K – ECONOMIC DEPENDENCY

A significant portion of the District's activity is dependent upon the continued involvement of the Developer, the loss of which could have a material adverse effect on the District's operations.

NOTE L – RISK MANAGEMENT

The government is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance.

NOTE M – SUBSEQUENT EVENT

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Supervisors
South Village Community Development District
Clay County, FL

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of South Village Community Development District, as of and for the year ended September 30, 2018, and the related notes to the financial statements, and have issued our report thereon dated August 12, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered South Village Community Development District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of South Village Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of South Village Community Development District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

✓ Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether South Village Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

 - b) Determination of dissolved oxygen levels prior to treatment, as deemed necessary, to ensure that oxygen level is high enough to allow safe treatment. Additional routine water analysis and/or bacteriological analysis may be performed if required for success of the water management program.
 - c) Where applicable, treatment of only one-half or less of the entire body of water at any one time to ensure safety to fish and other aquatic life. However, THE LAKE DOCTORS shall not be liable for loss of any exotic or non-native fish or vegetation. Customer must also notify THE LAKE DOCTORS if any exotic fish exist in lake or pond prior to treatment.
 - d) CUSTOMER understands and agrees that for the best effectiveness and environmental safety, materials used by THE LAKE DOCTORS may be used at rates equal to or lower than maximum label recommendations.
 - e) Triploid grass carp stocking, if included, will be performed at stocking rates determined the Florida Fish and Wildlife Conservation Commission permit guidelines.
 - f) CUSTOMER agrees to provide adequate access. Failure to provide adequate access may require re-negotiation or termination of this Agreement.
 - g) Control of some weeds may take 30-90 days depending upon species, materials used and environmental factors.
 - h) When deemed necessary by THE LAKE DOCTORS and approved by CUSTOMER, the planting and/or nurturing of certain varieties of plants, which for various reasons, help to maintain ecological balance.
- 2) Under the Shoreline Grass and Brush Control Program, THE LAKE DOCTORS will treat border vegetation to the water's edge including, but not limited to torpedograss, cattails, and other emergent vegetation such as woody brush and broadleaf weeds. Many of these species take several months or longer to fully decompose. CUSTOMER is responsible for any desired physical cutting and removal.
- 3) CUSTOMER agrees to inform THE LAKE DOCTORS in writing if any lake or pond areas have been or are scheduled to be mitigated (planted with required or beneficial aquatic vegetation). THE LAKE DOCTORS assumes no responsibility for damage to aquatic plants if CUSTOMER fails to provide such information in a timely manner. Emergent weed control may not be performed within mitigated areas, new or existing, unless specifically stated by separate contract or modification of this Agreement. CUSTOMER also agrees to notify THE LAKE DOCTORS, in writing, of any conditions which may affect the scope of work and CUSTOMER agrees to pay any resultant higher direct cost incurred.
- 4) If at any time during the term of this Agreement, CUSTOMER feels THE LAKE DOCTORS is not performing in a satisfactory manner, or in accordance with the terms of this Agreement, CUSTOMER shall inform THE LAKE DOCTORS, in writing, stating with particularity the reasons for CUSTOMER'S dissatisfaction. THE LAKE DOCTORS shall investigate and attempt to cure the defect.
